September 20, 2000

Mr. Doug Jensen
State of Utah
Department of Natural Resources
Division of Oil, Gas and Mining
PO Box 145801
Salt Lake City, Utah 84114-5801

Dear Mr. Jensen:

Per our telephone conversation, I would like to make corrections to the files to enable us to facilitate paperwork between SITLA, Department of Natural Resources and World Minerals.

Referring to the State Leases:

ML 41981 – Black Springs, Section 2; Township 24S; Range 9W. Permit should refer to both the state lease number and the nomenclature Black Springs.

Present Black Springs permit E027013 should be changed to read: Black Rock, ML 42768 – Section 32; Township 23S; Range 9W, with multiple BLM Claims not included in Section 32. Permit should refer to both the state lease number and the nomenclature Black Rock.

NOI for the year 2000 should reflect work only on ML 41981 – Black Springs for exploration purposes only and be changed this year from an exploration permit to a SMO. It is our intent to change the other state lease to a SMO next year (2001). Ore body estimates are not available at this time as we are in the discovery phase and have not done definitive drilling enough to allow us that information

Thank you for your help.

Sincerely,
WORLD MINERALS INC.

Jonna True
Office Manager
